	Term 1
	Calculations, checking and rounding
Ξ	Indices, roots, reciprocals and order of operations
Unit 1	Factors, multiples and primes
	Basics of algebra
# 5	Setting up, rearrange and solve equations
Unit 2	Sequnces
	Term 2
	Averages and range
ب	Representing and interpreting data
Unit 3	Scatter Graphs
Unit 4	Fractions and percentages
n n	Ratio and Proportion
	Term 3
	Polygons, angles and parallel lines
Jnit 5	Pythagoras' theorem
Uni	Trigonometry
	Term 4
	Basics of graphs
	Real-life graphs
9 +	Linear graphs and coordinate geometry
Uni	Quadratic, cubic and other graphs

	Term 5
	Perimeter, area and circles
1	3D forms and volume, cylinders, cones and spheres
Unit 7	Accuracy and bounds
∞ +	Transformations
ii.	Constructions, loci and bearings
	Term 6
Unit 9	Solving quadratic and simultaneous equations
i i	Inequalities
